VCCCAR Think Tank: Climate change adaptations: fisheries, estuaries and knowledge exchange

When: 16 & 17 September 2013

Where: Deakin University, Warrnambool City Campus
VCCCAR is sponsoring a think tank on *Climate change adaptations: fisheries, estuaries and knowledge exchange*. The aim is to examine adaptation options for users of two key components of the Victorian marine environment – offshore and estuarine ecosystems. The focus will be a whole-of-ecosystem approach and how key local government, natural resource managers and industries can adapt to climate-related changes to these ecosystems. For more information contact Gerry Quinn gerry.quinn@deakin.edu.au

2012 VCCCAR Visiting Fellow's final report

2012 VCCCAR Visiting Fellow Kate Lonsdale's final report *Beyond tools: building learning organisations to adapt to a changing climate* is available on the VCCCAR website. Kate's report was based on her participation in the project 'Implementing tools to increase adaptive capacity in the community and natural resources management sectors'. **Follow the link** to download the report.

VCCCAR 2011 - 2012 Annual Report available online

The 2011 - 2012 Annual Report is now available. It highlights our research program, communication activities, Annual Forum, think tanks and Visiting Fellowship. **Follow the link** to view the report, or email douglass@unimelb.edu.au if you would like a printed copy.
